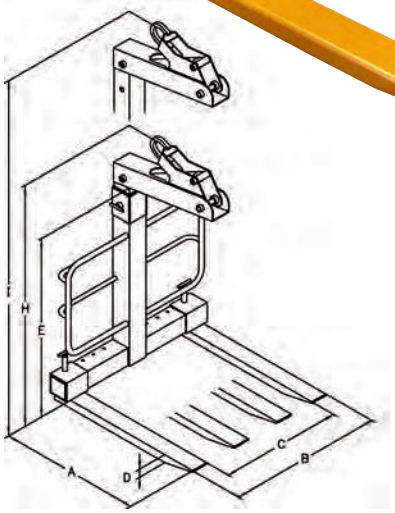
BSV Crane Fork

Self-balancing Crane Fork

BSV offers an extensive portfolio of self-balancing crane forks. The self-balancing function makes them ideal for use off tower cranes and overhead gantries.
Fork separation can be adjusted to suit most common pallet types.

A BSV crane fork with bow lifting eye offers many advantages, especially in terms of safety and durability

- Simple adjustment of lifting point
- Manufactured in high grade steel
- Extremely strong and durable
- Low unit weight combined with a strong, rigid design
- High safety factor
- Quick and easy adjustment of free height and fork separation
- Handgrips are located clear of the load to prevent injury
- Various fork dimensions can be fitted
- Individually load tested on a computerised test-bench



BSV crane forks can be mounted on a wide variety of cranes and gantries. Different suspension linkages are available to suit all types of crane.
