

BSV grab type AG 420 is a grab with a large capacity to handle animal manure and deep litter. Besides being a manure grab it is also used for branches as plant waste, aquatic vegetation and grass.

This grab is constructed with a low installation height and a large opening width.

All KS II grabs are delivered with integrated lifting points as standard (max 1000 kg) for lifting chains.

In addition we can offer extra weld-on lifting hooks, which can lift up to 3.500 kg
